

Brainstorming your Product and your Learning Goal

Let us go through the slides first to introduce definitions and examples of the Product and the Learning Goal. The [slides link is here](#)

There are 2 ways to set a goal: start with your Learning Goal (gray) or start with your Product (blue).

On this page: start planning and brainstorming your **Learning Goal** and **Product**. You will have to show this to the teacher when you approach them to be your Supervisor.

Brainstorm, draw and explain 1 or 2 of your best ideas.
