<p>Student: This document records your progress and the nature of your discussions with your supervisor. You should aim to see your supervisor at least three times: at the start of the process to discuss your initial ideas, then once you have completed a significant amount of your project, and finally once your completed report/presentation has been submitted.</p> <p>Supervisor: You are asked to have at least three supervision sessions with students, one at the start of the process, an interim meeting and then the final meeting. Other sessions are permitted but do not need to be recorded on this sheet. After each session, students should make a summary of what was discussed and you should sign and date these comments.</p>

Meeting 3	February 21, 2023	<p>The meeting took place during 10:05~10:25. We discussed about Objective B and C: for B, use command terms to clarify the ATL skills applied and restate the learning goal even though it is stated in A; for C, mention and justify the modification on action plan in text (a table of the new plan is not needed). Although the product (game) does not support multiplayer, it is not stated in the success criteria, so it can be mentioned but not counted as a failure in the product.</p>	<p>Student: K. <p>Supervisor comment</p> <p>Kyle has clear goals about his personal project throughout the process. He improved a lot in resilience as he can deal with unmet expectations with a positive attitude at the end of the project. Kyle is great at self-organization skills as he has everything ready for each meetings and aware of the deadlines. Overall, it is a pleasant experience to work with Kyle.</p>
